

FAIR-FIELDER

Catch what was said in the sermon?

January 5, 2020

The resolution **against resolutions** (2) has worked quite well.

It's a **dead end** (2) with posts showing the **terminal** point.

It seems rather amazing that the first **rolling suitcase** (2) wasn't invented until **1970**.

The reason he sounds so **loopy** with all of this **happy talk** (2) is the context.

It's like a **terminal diagnosis** (2).

God is also bringing along the **weakest** as an explicit **priority**.

We even **doubt** that **God** can do it.

An example is presented in the very **abstract** and theologically reflective recasting of the **creation** story.

Through Jesus, believers **become children** (2) of God themselves.

Faith communities are **little** more than a **reflection** of those within.

This year, we need to get a **grip** on how we want to **shine** the light of the **Kingdom** to the world.
