

# FAIR-FIELDER

*Catch what was said in the sermon?*

---

**February 5, 2017**

Certainly the people hearing the prophet **Micah**'s words would have felt the same way; that isn't **worship**.

Again, we have God showing **utter contempt** (2) for the worship and devotional life of God's people.

I mean, we like **mission** stuff and all, but it surely isn't **worship**.

It has made us a religion that is worship- or **ritual**-centered and **building**-focused.

We practice a belief that God is **separate** from the world, found in a special **sanctuary** place.

It's **upside** down or **inside** out.

So with all this **script flipping** (2), whose **script** should we follow?

But it also suggests that the **identity** can be voided.

This **warning** is for those who fail to **follow** the script.

Jesus sets the bar **higher** than their **highest** expectation.

God wants our efforts focused on building a **fire** out there, not on tending the **flickering candles** (2) in here.
