Catch what was said in the sermon?

I think about that for a **fraction** of a **second**.

Elvis Presley had **thrusting hips** (2) and got criticized in the **1950s**.

Misdirection isn't simply a **common tool** (2) for the **magical**

As Moses enters this **sacred space** (2), a cloud covers the **mountain**.

By the way, **boxers** , not briefs for priestly **underwear**.

They need to start responding **independently** and **responsibly**.

The big show did not keep God's people from **going off** (2) the **rails**.

He decides to **step up** (2) and show some **leadership**.

Jesus has probably done a **face palm** (2) but God moves **firmly ahead** (2).

But despite all of that, it doesn't mean the **disciples** were **listening**.

The very next story has the disciples looking **silly** and **useless** as they fail to **drive** out a **demon**.
