

# FAIR-FIELDER

*Catch what was said in the sermon?*

**March 3, 2019**

The mission was fixing up **men** in Bravo's "**Queer Eye (2)** for the **Straight Guy.**" (2)

Quite frankly, most churches are excellent at taking the **spirit** and **crushing** it with stunning effectiveness.

Our scriptures describe special occasions known as "**mountaintop experiences**". (2)

He remarked about his first day in **Chicago** arriving from **Tulsa**

But it wasn't a **temporary** thing for Moses; this **glowing** business didn't stop.

Not only is Jesus' **face** changed there, but his **clothes** become a **dazzling** white.

In this wildly **abnormal** situation, Peter tries to create a semblance of **normalcy**.

Just **cover** it up; put a **veil** over it.

Our culture and its obsession with **acquisition** and status is a **false god** (2) that promises joy and blessing.

They can be very good at **stirring** the **froth** of spirituality.

Such witnesses wore the **brightness** of a sacred faith and lived in its **glow**.
