

FAIR-FIELDER

Catch what was said in the sermon?

March 15, 2015

A few years before Obama's election, then-FL Gov. Jeb Bush declared his **One Florida** (2) initiative.

That **shooting death** (2) alone could have been the issue, but it wasn't.

Nothing short of **calamity** could awaken us.

Uzzah's action reflects the notion that **God** is *in* an **object**.

Okay, so we end up with the Ark of God *given* to a **Philistine**.

After the Uzzah incident, it's clear that **God** is the **subject** of the celebration.

The **miracle** is never the message, just a **vehicle** serving the message.

There was a lesson to be learned back there in the **feeding** of the **5,000** (#), but they didn't learn it.

Both instances in the boat act as **report card** (2).

No one likes to fail, but if you simply get angry about it and don't try to **learn** from failure, you're a **jerk**.

Then it will be for us that we can **walk on water** (3).
