

FAIR-FIELDER

Catch what was said in the sermon

March 22, 2020

Some may think that **Al Gore** (2) invented the idea.

Like **global warming** (2) , we could verify the impacts elsewhere, but we still couldn't take this **new reality** (2) seriously.

As in other cases, **convincing** God's faithful can be a **chore**.

As a **species**, we will have to **improve**, or we won't **survive**.

It seems **word** is out that **Saul** is a bit of a **wacko**.

Sure enough, **Junior** gets the **nod** from **God**.

That's a **stunning failure** (2), showing just how **captive** we are to our own **beliefs** and assumptions.

Jesus **brushes** off the question saying that **neither sinned** (2). Then Jesus throws a **curve ball** (2).

Therefore, Jesus could not be **authorized** by God since he **broke** the **sabbath**.

So, maybe it's more like **Mr. Magoo** (2).

We may perceive that our **pat** answers are **bunk**, and that a **new reality** (2) awaits faithful eyes.
