

FAIR-FIELDER

Catch what was said in the sermon?

April 17, 2016

I haven't even mentioned the **people** we might encounter directly.

But if I'm looking for a **Waffle House** (2)

"The Jews" here refers to the **establishment** types..

You know very clearly that it means someone **died**.

The shepherd doesn't need a **nametag**.

At the very least, it is seen as the re-establishment of **God's sovereignty** (2) over his people.

Right now, you might have that whole **trinity** thing running through your mind.

God and Jesus are on the same **wavelength** completely.

In itself, the story is rather **unremarkable**.

He shoos away the **shrieking mourners** (2)

The question is whether my witness of faith has the **depth** and **strength** to confront worldly forces .

The **shepherd** is speaking; let the **sheep** listen (2).
