

FAIR-FIELDER

Catch what was said in the sermon?

April 23, 2017

“Is it true that you were shot in the **lumbar** region?”

Eyewitness testimony has been the **linchpin** in **trials** since witnesses were invented.

Who or what is Isaiah talking about? The words are so **enigmatic** and **ambiguous**.

The “our” is likely those who **believe** in **God**.

Is this a **model** for God’s people coming fresh out of **Babylon**?

If the reading was as **simple** as our Bible translation, it would make a very balanced **couplet**.

The point is that **forgiveness** is now the norm.

Frankly, I think **Thomas** was justified.

It’s pretty hard to **believe** something without **seeing** it.

Communicating an understanding of the faith will require **faith** in **action**.

In the same way, it’s nearly impossible to understand **Kingdom faith** (2) if you simply read **scripture** and never put any of it to use.
