

# FAIR-FIELDER

*Catch what was said in the sermon*

---

April 26, 2020

Jesus has shown himself to be **pretty sneaky** (2) sometimes.

They were focused on **counting** the number of **passes** made by those wearing **white shirts** (2).

“Change **blindness**” refers to a range of **effects** that make us **blind** to things.

. . . the **police** cruiser **parked** by the **donut** shop.

He describes a **near - death** (2) experience.

In any case, the **psalmist** believed his **end** was near and his future was **hopeless**.

They’re on **the run** (2), even if they’re **walking**.

In retaliation, the Romans **burned Emmaus** (2) to the ground.

Once again, we encounter the theme of **blindness** to the **reality** of the Lord.

They were **empowered** to push back against the **current** of **fear**.

If you lose your **job** in **Florida**, you have probably lost any **health benefits** (2), too.

It is a simple **contrast** of the **Kingdom** way over the world’s way.
