

# FAIR-FIELDER

*Catch what was said in the sermon?*

Fear is a real thing and not easily dismissed with some **notable quote** (2).

The likelihood of **rational minds** (2) working this out seems quite thin.

Wimpy **King Ahab** (2) **men** went off with his tail between his legs.

While in the cave, that's when God speaks to Elijah with that **damning question** (2).

Elijah seems to have **forgotten** a number of details.

Elijah had lost sight of **God** in the swift turn from **victory** to **adversity**.

This person did nothing to remove the **fear**, except to **lift** it ....

Then, unlike in **Mark**, it becomes a story about Peter, a **favorite character** (2) of Matthew's.

In a split second, that **euphoria** is swept aside.

But **fear** and **doubt** distracted him from the promise of God, the promise that was **within** his **grasp**.

We can flip fear to faith when we realize that we're **not alone** (2).
