Babe the **umpire** called Ruth out on a called **third strike** (2).

It's an **aberration**, but a very popular one today.

You don't need a **seminary**, but you do need to make use of those **lenses**

So, Pharaoh created **concentration camps** (2) or ghettos near **construction** sites.

Pharaoh has the authority—he thinks **divine** authority—to deal with this growing **nuisance** population.

... the Hebrew women are dropping these babies like **candy** from a **vending machine** (2).

That is not merely **disobedience**; it's **treasonous**.

It is a question that requires “**kingdom vision**” (2).

It names the one God who **reshapes** and **recreates**.

Pretenders abound, but there remains the promise of what is **sacred** and **holy**.

Will we respond with the **audacity** of the Hebrew midwives in the face of Pharaoh's **illegitimate** authority?
