

FAIR-FIELDER

Catch what was said in the sermon?

September 13, 2015

Ideally, it takes **15-20** minutes per student.

Mitch mentioned that he was taking university level courses in **counseling**. I raised my **eyebrows**.

Frankly, they are **fundamentalist Bible trash**.

And all of this quackeroo is tied to a well known, long standing **televangelist**.

Wisdom is a **woman** calling out to people.

This harsh tone is an attempt to get people to **wake up** (2).

It sounds like Wisdom has gotten really **nasty**.

Children have those moments, not folks look back fondly on the **disappearance** of middle age.

A great case in point: **Pharaoh**.

The “good life” has its witness in **daily life** (2).

This is not sacred wisdom, but **profane** wisdom, **earthly** and unspiritual.

These are all suitable characteristics that define that key word “**humility**.”
