

FAIR-FIELDER

Catch what was said in the sermon?

October 2, 2016

We laugh at **remedies** in old newspapers and magazines.

Their demands make a certain degree of sense, but they're demanding **divine intervention** (2).

Clearly, Habakkuk falls among the **social justice** (2) prophets.

You need to write the vision because the vision is why you **struggle** for **justice**.

The vision is **short** and **simple**, readily shared....

Jesus will be talking about the same **coming** of the **end** of the **age**.

But God also sees the **righteous** and they strive **forward**.

They feel **weak** and **inadequate** to the task.

Such faith is nothing **exceptional**.

That promise and the results it brings are **beyond measure** (2).

It is summed up in the tiny fragment of **bread** and the little **cup**.
