

FAIR-FIELDER

Catch what was said in the sermon?

November 9, 2014

The light is on when someone is **working**.

Joshua warns them about making **partnerships** and **alliances** with other nations.

He knows full well that they have already become **syncretistic**. *[Extra points for spelling, for those keeping count.]*

They protest this **accusation** that they would serve other gods.

Joshua was so un-impressed that he set up a **stone**.

“Keeping the light on” means **practicing** in discipleship and living in **witness** to the new life promise.

There are the wise or practical ones, the **Marthas**

Then there are the five foolish virgins, the **blondes**

To the invitation, the wise ones smile sweetly and reply, “**Buzz off!**” (2)

These folks **waiting** for the **end** didn’t keep the light on as they focused on the wrong things.

...Then the light is off and **darkness** is able to prevail.
