The visions can be outlandish and **bizarre**.

Quite eccentric or a **bit nutty** (2), Medoff knew nothing about **science**.

Xyleco's Board of Directors features people like **Steven Chu**, former Secretary of **Energy**.

The destruction of the **once - proud** (2) city continues to confront them **daily**.

Who has the vision to **galvanize** the people to **action**?

God's promise **awaits fulfillment** (2) in them once again.

God adds a **material** promise to the **spiritual** promise.

Here, **peace** is not simply the absence of **war** or conflict.

In Jesus' typically **annoying** manner, he answers the **question** with a **question**.

Jesus responded in a **tit - for - tat** manner.

Jesus likely gave it new **dimension** and certainly gave it new **direction**.
