

FAIR-FIELDER

Catch what was said in the sermon?

December 6, 2015

The Christmas shopping season began with a **bang** on Black Friday.

No, I don't mean Jesus; I mean **Donald Trump** (2).

What we never hear about is **religion** as playing an important role in the development of plans or diplomacy.

God has a complaint about his people, that they're **tiresome**.

The prophet speaks of the messenger as a **refiner**.

The first three, 'sorcerers, adulterers, and liars,' all go together and continue the theme of **false worship** (2).

Faithful worship must be coupled with **faithful values** (2).

The people of Zechariah's time are also lost in this **wilderness**.

The section closes with words echoing **Isaiah's** hope-filled vision....

They are an **abomination** of prayer.

We will be healed of our **deafness** and **blindness**.
